# Rohit Kumar Srivastava

**Junior Data Scientist**
rhtkmrsrivastava@gmail.com | (+91)9508550494 | Bokaro, India
Github | LinkedIn | Kaggle

## SUMMARY

Junior Data Scientist with hands-on experience in Python, SQL, Machine Learning, LLMs, and AI Agents, with practical experience building and deploying AI-powered automation solutions. Developed and deployed an automated Job Pipeline that discovers job openings based on candidate profiles, generates tailored resumes, checks ATS scores, and combines these workflows into a single pipeline. Also developed an AI Voice Agent Chatbot with RAG, voice interaction, and multi-provider LLM support. Experienced in Railway deployment, API integration, workflow automation, and application development.

## EXPERIENCE

**Kaggle Pro LLC** — **Lathrop, California | Startup**
**Junior Data Scientist** — **Sept 2024 - Present**

### AI Job Pipeline Project

- Engineered an automated job pipeline, reducing resume tailoring time from 10 minutes to under 8 seconds.
- Aggregated job discovery across 5+ portals into a unified workflow, significantly increasing sourcing efficiency.
- Developed an integrated ATS scoring engine, cutting manual evaluation time by 2-3 minutes per application.
- Deployed on Railway, leveraging AI-assisted workflows to enhance development velocity and operational reliability.

### AI Voice Agent Chatbot

- Built an AI voice chatbot using 4+ technologies including FastAPI, LangGraph, WebSocket, and PostgreSQL, supporting voice, RAG, and multi-model AI interactions.
- Reduced AI provider dependency by 100% by replacing OpenAI services with Google Gemini and Hugging Face for LLM, STT, and TTS.
- Built a PDF-based RAG pipeline using local Sentence Transformers and PostgreSQL/SQLite similarity search, reducing embedding API costs by 100%.
- Added 4+ reliability and security layers including error handling, regression tests, security checks, and OpenTelemetry monitoring for better system tracking.

## TECHNICAL KNOWLEDGE

- **Programming:** Python, SQL
- **Data & Analytics:** Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Statistical Analysis, Pandas, NumPy, Excel
- **AI & ML:** Machine Learning, Predictive Analytics, LLMs, AI Agents, Prompt Engineering
- **Backend & Automation:** Workflow Automation, API Integration, Railway, CI/CD
- **AI Development Tools:** Claude, Cursor, Git, GitHub
- **Domain Knowledge:** Data Privacy, Authentication & Authorization

## EDUCATION

**Doranda College, Ranchi** — Sept 2022 – Feb 2026
B.Sc. Information Technology — Ranchi, Jharkhand
